SATISFACTORY OPENING OF REGU-LAR FALL DEMAND.

July Failures Smaller Than for Any Other Month on Record, Excepting May-All Prices Except of Cereals Are Well Maintained.

NEW YORK, Aug. 4.-Bradstreet's to-

"All conditions indicate the maintenance of general trade and industry in an unprecedented midsummer volume. Especially indicative of this are the continued very heavy bank clearings returns, largely in reased railroad earnings, reflecting a traftle in grain and merchandise generally far in excess of a year ago; reports of activity in numerous lines of manufacturing industry, notably in all branches of iron and steel and kindred lines, woolen goods, boots and shoes and cotton goods, and advices from leading markets of a satisfactory opening of the regular fall demand, with heavy shipments of goods on orders.

"With the exception of food products, the prices situation is generally one of maintained strength, advances being numerous in the line of manufactured goods or in raw materials for manufacturing industry. Cereals are all lower on the week, reflect ing the generally favorable crop outlook and also some indifference as regards for eign buying of wheat, though the export demand for corn has been apparently stim-ulated by recent price reactions. All classes of iron and steel are either firmly held or tending upward, notable in this respect being all grades of pig iron and steel rails. structural metal and bar iron and steel. Other metals are rather quieter, and tin shows reaction from the high price reached last week. Wool is still moving upward in sympathy with improved demand for the reunion city, has written to Oklahoma City manufactured article, but buying is more closely confined to manufacturers, speculative dealing being apparently less noticeable. Cotton is steady, pending further developments in the crop situation. The anthracite coal trade appears to be well under control and advances are reported

"Western and Northwestern trade advices tell of expanding fall trade. Shipments on fall account from Minneapolis tax the facilities of the jobbing houses. Lumber

view of Trade, will say: "July failures have been smaller than in any month of which there is record excepting May, and trading fallures smaller than in any other month. Surprising contrasts are shown by comparison of small with large failures in different years, and in no class of business, without some large failures not attributable to present infludoes the aggregate equal the average of the past six years.

denotes the buying of stocks has been denoted by shares, and bills against produce to be shipped are very heavy.

"This describes a revolution in finances, not unlike that in industries, Europe searching for wool here at 50 cents, scoured, and for pig fron at \$20 per ton. A vast demand for both materials has fallen upon the commercial world, which this country alone appears able to meet for its own needs. Wool shipments from Australla have been surprisingly little, below those of last year, but Europe talks of a wool famine, while this country has on hand a year's coing, and prices are not yet as high as they were in February of last year, when stocks were many million pounds larger. Cheviots and some other goods are higher, but the average has advanced slightly less than the price of the wool. Cotton goods are unchanged in price, with cotton still at 6.12 cents, heavy surplus stocks rendering crop uncertainties powerless to effect an advance. "Scarcity of Bessemer pig has caused two steel works at Pittsburg to stop a day or two, and \$21.25 to \$21.75 has been paid for 20.000 tons, with \$17.75 for gray forge and a rise of 50 cents in local coke at Chicago. It is no longer a question whether enough can be had after a while; the trouble is about early supplies. Orders for plates and It is no longer a question whether enough can be had after a while; the trouble is about early supplies. Orders for plates and structural work are refused at most points, mills having work far ahead and for sheets also at Philadelphia, though new and large mills make things easier in plates at Pittsburg. Bar iron is in great demand instead of steel, being \$3 to \$4 cheaper, and new Eastern mills get all the business they want. The magnitude of the demand, in spite of high prices, is everywhere a in spite of high prices, is everywhere a

Once more Connelisville eclipses itself "Once more Connellsville eclipses itself with only 550 ovens idle and 191.561 tons coke produced for the week. Tin was raised by London to the breaking point, 33 cents here being followed by 31½ cents, but copper was firm at 18½ cents for lake, though the London visible supply reached 32.020 tons, the largest since 1877. Lead was quiet at \$4.60. About the saddest thing in Indian life is the sight of young people who have been educated to live the life of the white man, but who sink back into semi-barbarous life again. White people living at Red Rock tell the story of an Osage girl on the reservation near there. FAVORS ELECTING STATE OFFICERS FOR FOUR YEARS.

Would Consolidate County Elections So That They Would Be Held Only Biennially-Some of the Benefits That Would Follow.

TOPEKA, Aug. 4 .- (Special.) Governor Stanley says that elections are held entirely too often in Kansas for the good of the state, and in his next message to the legislature he will urge the passage of a aw cutting out about half of them.

"At present we have an election every six months," said he. "We have a municipal election each spring, when half of the city officers are chosen. In the fall we have a county election, when half of the county officers are chosen. The state elec-tion comes every two years and the presidential election every four. My idea would be to cut out one state election. Elect state officers for a term of four years, at the time the president is elected. Then prohibit a state officer from holding more than one term. Consolidate the county elections, so as to hold one every two years, and elect all county officers at that time; also hold municipal elections every two years. This would get rid of just half the elections we now hold.

"It would be a benefit to the state in more ways than one. In the first place, it would save the taxpayers thousands of dollars. Elections are costly institutions o the people, as well as to the candidates The public bears the expense of holding an election. Then a decrease in the number of elections would be a benefit to the business world. Instead of talking politics almost all the time and neglecting business, a certain class of men would talk business more and politics less. It would working' candidates. They can do fairly well, now that elections are held every six months, but put elections two years apart and they will either have to work or starve. I believe the next legislature will pass some bills to remedy this evil."

Some "Reform" Primaries.

ABILENE, KAS., Aug. 4.—(Special.) The primaries of the allied forces were held last night in most of the precincts of the county. The Democrats and Populists appeared to have separate organizations, but in fact many attended and took part in the meetings of both parties. In some of the Democratic precincts more delegates were allowed by the call than Democratic votes were cast at the last election. The country Populists are very wroth at the action of the town fixers, and threaten to make things interesting at the conventions.

ANTHONY TRIES A NEW TACK. in His Fight on the Leavenworth Standard He Demands an Accounting.

TOPEKA, Aug. 4.-(Special.) Colonel D. R. Anthony has taken a new tack in his fight on the Leavenworth Standard. He has discovered that the Standard has not complied with the new corporation law and

has discovered that the Standard has not complied with the new corporation law and he wants the state authorities to cancel its charter and have a receiver appointed to wind up its business. But the state officers will not likely take any action in the matter. They don't care to be dragged into the controversy.

In a letter to Attorney General Godard received to-day Colonel Anthony says:

"Dear Sir:—I own one-sixth of the stock in the Standard printing company, which company has never made a statement as required by law and I am informed has never kept a regular set of books. It admits in its paper that I am a stockholder. Judge Hurd was the president. He died February 22, 189, since which time there has been no election of officers. It seems to me that this company should be called to time and required to either make a statement, or proceedings should be instituted against it to have its charter forfelted, or at least a receiver should be appointed to take charge of the concern."

Assistant Attorney General West replied that the colonel should have the county attorney of Leavenworth either bring mandamus proceedings to compel the Standard company to make a report according to law or to annul its charter. Either of these proceedings can be instituted on the grounds that the company is an outlaw. The corporation act requires all companies or refuse to do so the law provides that it cannot prosecute or defend a suit in which it is interested. It has been suggested to Colonel Anthony that he could bring the Standard to time by vigorously prosecuting one of his numerous libel suits against it while it is an outlaw and cannot defend itself in the courts. Such a move would compel the Standard to file a report or have a big judgment rendered against it which would be a lien against its property.

When Judge Burford held court at Chandler a few weeks ago he read the riot act to the officers of the law. In a strongly worded ultimatum he declared that the operation of gambling houses was in violation of the laws of Oklahoma and that they, as officers, would be compelled to see that this, as well as other laws, is respected. Over at Enid Judge McAtee has announced a similar intention of making things warm for officials who are lax in their duty. It is understood that this is a part of a concerted movement in which the three other judges will have a part and at the fall sessions of the district courts the wearers of the ermine will proceed to "make things warm" for offenders.

An interesting feature of the crusade is the part taken in it by farmers' wives. It is said that farmers' wives in Pottawatomie county to the number of sixty-four have signed a petition asking officials to close the gambling houses. They know that their husbands will have pienty of money in the fall and that the temptations of the gaming table are great. When Judge Burford held court at Chan-
